

M3H INT'L GENERAL TRADING (L.L.C)

28.06.2007 in Dubai, UAE

To Whom It May Concern:

Kindly be informed that our company, M3H International General Trading LLC, had the pleasure and privilege to accompany and assist the company INNO-Concept GmbH of Strausberg, Germany, during the exhibition "Agra Middle East" in Dubai, UAE, in April 2007.

During that trade fair we got good feedback about the devices and the technology "PlantVital®5030" and their derivatives "PlantVital®5020", "PlantVital®5010" and "PlantVital®5015".

We realized that the visitors from different branches coming from several countries of Middle East, Africa and South Asia expressed a great interest in these devices and technology, mainly due to the manifold of different applications in agriculture, gardening, forestry, land scaping and water ecology.

During the fair as well as in several presentations in related departments and scientific institutions of the municipalities in Dubai, Abu Dhabi, Sharjah, Fujairah, Ajman, Al Ain and Umm Al Quain, the visitors and the participants of seminars expressed a vital interest in applying this technology.

After presenting this technology in the Dubai subsidiary of the Arab Authority for Agriculture Investment and Development (AAAID), we received an invitation for INNO-Concept GmbH to present this technology in the Headquarters of AAAID in Khartoum, Sudan. Currently, preparations are being undertaken for this visit.

This is for your kind information.
